About Us

Celebrating culture of collaboration and sustainable manufacturing, EMKO seeks to empower furniture and interior accessories to embrace and inspire positivity and create a sense of belonging.

EMKO's furniture and interior accessories are defined by their smart functionality and creative flair allowing customers to enhance the positive and contemporary atmosphere of any interior. All items are designed to subtly display character while remaining highly versatile, encouraging customers to feel playful about arranging items and creating authentic spaces. Made of sustainable organic materials, EMKO products are tactile and pleasant to touch. The inherent quality together with high production standards assures the pieces are durable and long-lasting. The company's collaborative, communal spirit coherently translates into its designs as they are intended to enhance a sense of belonging and light-hearted positivity in people inhabiting the environments where EMKO furniture exists.

EMKO aspires to build a global community of both designers and customers who create and appreciate smart functional design and optimism inducing contemporary aesthetic.

Limited
Edition

Naïve Low Chair Sheepskin
by etc.etc.

We are excited to introduce this new addition to our selection of upholsteries. Genuine sheepskin got our attention with a few essential values we aim to highlight in our products. It is a natural, long-lasting, and 100% biodegradable material. Sheepskin is a by-product of the meat industry, repurposed to create these luxury pieces for your interiors. It feels welcoming and incredibly soft to touch, ensuring the best comfort and coziness.

Naïve Pouf by etc.etc.

Smooth lines and well balanced proportions are the main features of the Naïve pouf. This cupcake silhouette pouf is a perfect companion for our Naïve sofa. Nevertheless, the pouf fits well in a hallway or can bring a comfy feeling to a dressing room or lounge.

Naïve pouf is available in two sizes and the same fabrics as Naïve Sofa — from soft velour to cozy boucle or natural leather.

Naïve Sofa by etc.etc.

The Naïve Sofa is the softest addition to continually growing Naïve furniture collection. This delightful piece is designed to accommodate up to three people and contributes to a favourable microclimate of any room it is placed in.

Flawless elegance works well for private as well as public interiors, creating an inviting space to unwind. What's more - the sofa effortlessly combines with different seating furniture.

***Upgrade**

From now on, Multifunctional Pill Extra is a perfect workplace that fits a 27" screen. It also has a functional tabletop and JUNG electric sockets. Moreover, secret storage compartments help quickly hide work clutter, making this piece a must for smaller spaces.

Multifunctional Pill by Dalius Razauskas

The Multifunctional Pill works great in the treatment against clutter and messy environments. The Pill is a round cabinet that works fixed to a wall and can instantly transform into a fully-functional working place, a dressing table, or even a bar! Attach it at standard table height, a bit higher or a bit lower – it's your choice. The shelving system inside is designed with the idea to allow the user to change and adapt it easily: it can fit a laptop, standard files, catalogues, books or any other personal belongings.

Furthermore, the Pill comes equipped with sockets and the option of integrating LED lights. The materials and the fittings used into manufacturing are providing a reliable desk transformation and tabletop stability.

Naïve Semi Bar Stool by etc.etc.

The Naïve semi bar stools stand out with their unique and recognizable character. A carved seat with a minimal backrest makes it comfortable enough for a long chat between friends, while durable steel footrest suits both home and public use.

Multifunctional Pill Extra by Dalius Razauskas

Multifunctional Pill Extra is an upgrade of our bestseller wall cabinet Pill. The idea came from our beloved design seekers asking about the solution for bigger screens — a computer or even TV.

The wall cabinet is available in black or white base combined with soft yellow, sky blue, black or white doors.

Bean Sofa

Bean modular sofa combines simple design with functionality. Due to its rounded corners, it is easy to join the segments and form a lounge of two, three, or more seats. Meanwhile, a pouf works well on its own or as an extension for your sofa.

Elegant wooden legs also add some lightness to a bit chubby base and ease the floor cleaning. Finally, pleated velour fabric brings a bohemian feel and is extremely soft to touch.

Bean sofa comes in five colors. Choose from royal blue, moss green, burgundy red, concrete grey, or always stylish beige. There also are two cushions that ensure the best comfort.

Lietuva Rug by Whynot Design Studio

The Whynot design team has created the Lietuva Rug after being inspired by the Lithuanian identity – its ancient traditions, its colours, clothing and handicraft. One of the unique Lithuanian craft elements is the colourful woven stripe once used in the national costumes. Different yarns are interwoven together and create geometric patterns, while the stylized flowers are ending in elegant colour combinations. In the rug, these artistic signs are used next to the contemporary modern linen craftwork, bringing together a touch of the Lithuanian spirit. Lietuva is available in different colours which define the Lithuanian nature: the blues of the lakes and winter frost; the light greys reflecting the sky; the greens of its woods contrasting with wild sand dunes. A reflection of Lithuania portrayed in the Lietuva Rug.

Chaos Rug by Audronė Drungilaitė

The very best parties usually leave us with a chaos and confetti on the floor. And like the great memories we get from such celebrations, the Chaos Rug will bring joy and happiness into your daily life. Yet the item is made out of the rug industry's leftover yarn. The base of this linen rug is hand-tufted with one-colour yarns, then the weaver selects the rest of the details from the leftovers.

Every single rug is therefore uniquely coloured and made from 100% linen that has hypoallergenic features. Available in two sizes (2x2 m and 2.5 x 2.5 m) and two different background colours (dark blue and caramel brown).

The rug has been shortlisted for the Dezeen Awards 2020 and Make Me! competition Finale.

Naïve Dining Table

by etc.etc.

Table's modest and clean form is decided by a simple but lasting construction - each leg has its own base under the tabletop making the table strong enough to serve generations to come. The roundish tabletop contour is designed to create an inviting and cozy atmosphere for everyone sitting around it.

The table is available fully oiled or with a colored body revealing just the oiled ash tabletop surface.

Naïve Stool

by etc.etc.

The smallest member of the Naïve family. A tiny but sturdy item that will find itself useful in many spaces and situations. Assembled out of a carved solid ash seat and three legs to screw.

Macaron Pendant Lamp

by Silvia Ceñal

Macaron lamp is combining simple materials with the right proportions, in order to get a lamp with personality. Wood conveys us warmth and strength. Along with the cord which links between the two pieces of wood, giving a touch of originality with its texture and color. It happens quite the same when it comes the Macaron with different flavors combining perfectly in it.

Naïve Low Chair

by etc.etc.

Naïve Low Chair introduces itself with a bright, yet mature and subtle look. Its main visual characteristic is a large leather strap that holds the backrest attached to the body. Firm connection between wood, leather and textile serves its function and makes it visually distinctive. After a long day Naïve Low is inviting for a cup of coffee or tea, have a relaxing read, or small adventure while watching a movie. It is a companion which values your time and sitting quality, thus, Naïve Low is the chair to live with. It is composed of long-lasting natural materials and suits organically to every background.

**Like other pieces in
this family, Naïve Low
Chair features a body
that can be easily
unscrewed and
flat-packed.**

Naïve Side Table by etc.etc.

The Naïve Side Table is available in three sizes, each one carved out of a single piece of solid ash. A form in between a square and a circle creates a soft and welcoming appearance and will easily adapt to any type of room. The tables can easily be assembled just by screwing the legs in, and they work well on their own, or with all three together.

Babel Serving Stand by ZP Studio

The tiered Babel Serving Stand is a composition of two scooped wooden plates and a central pole combined with a solid brass handle. All three parts are made with precision from solid ash, and the plates are oiled with oil which is certified for contact with food. The plates can be easily removed and used separately, and then again mounted back onto the central pole to create a stylish two-tier serving stand for fruits, nuts, cakes, and more. For all the cupcake lovers we recommend to flip over the plates to have the flat surface.

Naïve Chair by etc.etc.

This playful chair is stripped to the minimum: a carved solid ash seat and six legs of equal length to screw. It takes pitch-perfect accuracy to design its simple looks. Every single detail is carefully studied, the length and angles of the legs are engineered to obtain the best proportions and to offer superior ergonomics and a great sitting position. It takes a minute to assemble it, and another one to flat-pack it back into a small box for transportation or shipping.

4.9 Desk by Marius Valaitis

The unusual name of the 4.9 Desk has a story to tell: it reflects designer's Marius Valaitis desire to play with the concepts of perfection vs. flaw. For that it's almost five, missing just a tiny bit. This translates in the angles of the desktop, which, at its end, has a "crack", a slit not just for storage, but also to bring closure to the desk's core idea. The "imperfection" aside, all the details of this piece of furniture have been made with perfect accuracy. It not only brings convenience and efficiency to work, but adds a little bit of style to it as well.

Inclined seat and sturdy construction ensure the best comfort for whatever you are immersing into — from family gatherings at home to sophisticated dinners at the restaurant.

Citizen Chair | Chaos Rug | Babel Serving Stand

New!

Citizen Chair by etc.etc.

Citizen is a minimal dining chair with subtle details emphasizing its construction. The chair features rounded legs that offset from a square seat. Each leg casts a soft shadow on the body and renders a balanced posture of the chair. Effortless Citizen chair is crafted from sustainable, natural materials — solid oak and veneered plywood. Moreover, light and elegant Citizen chairs are easy to stack, allowing to quickly transform the space or store the chairs when not in use.

The best part? The Citizen chair proposes two different backrests that give birth to two unique characters. As citizens may be good or bad, you can choose your side — square or round backrest chair in natural either black painted oak. Both these characters harmoniously mix and complement each other around a dining table, prompting the artistic atmosphere of the room.

The table is crafted from sustainable, natural materials — solid oak and veneered plywood so perfectly matches our stackable laconic Citizen Chair.

Torch Hook by Tore Bleuzé

Just like a medieval torch, Torch Hook metal bracket is attached to the wall and wooden pin is easily stick in. It is an item of simple yet clever design. You can hang the clothes, jackets or scarves on the wooden pin and place a coat hanger behind it on the specially shaped bracket. The Torch is made of ash wood and powder coated metal, sold in pairs and available in four different colours.

Torch Hook is definitely an eye-catcher on the wall of your own cosy castle.

Citizen Dining Table by etc.etc.

An elegant and clear design language is the main feature of the new Citizen dining table. Uncovered round legs here expose the clean structure of the table and highlight the beauty of wooden texture.

Designed to enjoy a memorable time with our loved ones, Citizen is a highly versatile piece. It is available in three sizes — square as well as smaller or larger rectangular. This way, the table fits various purposes and interiors — from compact apartments to spacious restaurants or hotels.

Naïve Low Chair
Vintage Cognac
leather

Dessus Shelf by Pierre Foulonneau

In French, the name of this wall shelf means on top of and describes its primary function — to store your books, tableware, or decoration on top of the shelves. Dessus is a double-deck wall shelf. Powder-painted metal and plywood here accompany each other and connect into a timeless piece. Moreover, this shelf comes in a flatpack. Its two arch metal frames and two birch plywood shelves are easy to assemble and fix on the wall.

Finally, the shelf is available in two classic colors — off white or coal black frame.

New!

Aye Aye! Candleholder by etc.etc.

Aye Aye! is a fleet of rugged, round and bold iron cast candle holders inspired by the time of adventure and discovery, when the enthusiasm of the Industrial Revolution revealed the world to travellers and fortune seekers. The fleet is composed of four sizes – from a small tugboat with one funnel to a hefty steamship with four big ones. Each funnel is designed to fit either a tea-light candle for cosy harbour light or a taper candle as a pillar of steam.

Scattered on a dining table the vessels will seem to sail into an archipelago of plates sparkling good mood for conversation.

New!

Hat Pendant Lamp Set by Büro Famos

A set of comics-inspired Hat pendant lamps by German duo Büro Famos is an upgrade that should bring joy into your living room or lobby.

From now on, the lamp is available in sets of three or six. The central ceiling rose here perfectly connects all the messy wires. Meanwhile, small ceiling roses allow creating unique patterns based on your needs, room size, or imagination.

7.1 Chair by Nikita Bukoros

The 7.1 chair by Ukrainian designer Nikita Bukoros is a traditional look sturdy dining chair. It well fits both — your personal dining ritual at home or sophisticated dinner at the restaurant. A spoon-like backrest holder made from casted and polished brass is a distinctive feature of the 7.1 chair. It also refers to family traditions and cozy stories shared around the table.

Moreover, 7.1 is the volume of a dessert spoon in the imperial Apothecaries system and the inspiration behind this chair. Just like dessert is the final chord of a great dinner, the 7.1 chair is the cherry on top of the modern interior.

Four versions of the chair are available. Choose lacquered oak with beige woven upholstery or beige velour, either black painted oak with moss green velour or coal black woven upholstery.

Mirror Dew by Rasa Balaišė

Inspired by such dewdrops, designer created a mirror named Dew, which is a chic tribute to the phenomenon's reflective yet aesthetic qualities. Available in three sizes, Dew can be bronze, dark grey or classical, without colour. It also has its own four little "droplets" acting as functional details: you can place these bubble-shaped glass accessories on the lower surface – they are able to hold light jewellery, at the same time matching the chosen colour scheme. Just like real dewdrops, the mirror contains both otherworldly charm and crystal clear function.

Naïve Bench by etc.etc.

Made from solid wood, the Naïve Bench Seat is as strong as it is visually gracious. The item can be made in two sizes, also with or without the padding that comes in the eight colours of the Naïve Low Chair. If unpadded, the bench seat is either black or oiled ash wood. And like the other pieces in this family, it's genuinely easy to assemble as well as effortlessly adaptable to any room.

Naïve Tray by etc.etc.

The Naïve Tray comes in the colour of ash wood and in a single size. The tray is truly distinctive due to its pleasant appearance, the ability to adapt to any space, and the highest certified quality of the oil used on it.

reddot award 2014
winner

Sun Wall Lamp

by Barbora Adamonytė-Keidūnė

Life as we know it is a revolving cycle around the Sun. Since the dawn of time, the Sun's stages shaped the way we interact with the world around us. The skies have become a mirror to humans' ancestral ways, tied to our well-being, our emotional balance and everyday life activities. Crisp bright blue mornings followed by the red-orange-purple of sunsets give us energy and joy. On the other hand, a few days of grey and cloudy skies or months of short winter days and our mood begins to shift. It doesn't take much to feel under the weather.

Add to that the modern lifestyle, which has slowly pulled us away from the Sun's natural cycles, as we have moved our activities indoors, inside closed spaces which have shut off our contact with the elements, and our longing for the natural benefits of the Sun increases.

Created during the dark Lithuanian winters, SUNrise/SUNset is a lamp that puts the Sun's colours into the palm of your hand. The winner of the international exhibition Furniture 2012 in Vilnius and the Red Dot Design Concept Award in 2014, this interactive object gives its user the possibility to choose the right colour palette to suit the desired mood effect according to the moment of the day or personal preference, by gently sliding the light source over the coloured panel. It brings bright mornings' vibrant and refreshing coolness inside your office or the warmth of cosy evenings to your living room.

This wall lamp has been created during study years at Vilnius Academy of Arts.

Step Up Shoe Rack by Tore Bleuzé

Such simple solution to store shoes and always have them in sight, designed by Tore Bleuzé, feels so obvious and natural that it's almost strange it hasn't been used before. All you need to do is gently put Step Up against a wall and it will do the job. It doesn't take a lot of space and it can easily be relocated. The smaller version of this shoe rack, the Step Up Mini, has been welcomed into the EMKO range as well. Used by itself for smaller shoes or smaller spaces, or in combination with its "bigger brother", the Step Up family can now fit everyone's needs.

Macaron Wall Lamp
by Silvia Ceñal

Being the youngest member of the Macaron family, Macaron Wall Lamp combines simple materials with the right proportions to get a lamp with a personality. Available in two sizes, five colours and suitable to fix in two positions - up and down.

Macaron Floor Lamp
by Silvia Ceñal

Silvia Ceñal was inspired by a sweet meringue based confection made with simple ingredients like eggs, icing sugar, granulated sugar and almond powder. However, making the perfect sweet is not an easy task. Macaron lamp follows the same idea; combining simple materials with the right proportions, in order to get a lamp with personality. Wood conveys us warmth and strength. Along with the cord which links between the two pieces of wood, giving a touch of originality with its texture and color. It happens quite the same when it comes to the Macaron with different flavors combining perfectly in it. After two unbelievably successful years in the market for the pendant lamps, Silvia and EMKO agreed the Floor lamp will surely fit in.

My Writing Desk by etc.etc.

While developing the idea of the My writing desk (MWD), designer Inesa Malafej had a clear goal – to reduce the chaotic clutter that creative work brings to the table. The result is a desk which has its storage space organized around the table-top, where the objects are always in sight and easily accessible. This enlarges the desktop beyond its edges without the worry that things might fall down. Furthermore, any unnecessary objects can simply be pushed to the sides, for storage. The high edges of the desk isolate it in the room and create a positive microclimate where things “feel good” in relationship to the user. The wings are divided, leaving space for the electrical wires. MWD features two drawers, to store a laptop and other working tools. The legs of the table can be twisted off for easier transportation. For smaller, cozier spaces, a one drawer version was created.

MWD is Inesa’s graduation project from the Vilnius Academy of Arts.
